

Concrete Hopper

Concrete Hoppers - The self-dumping hopper attachment could automatically activate to both dump and release as the bumper release contacts the side of a dumpster. Once unloading is done, the hopper can go back to original locked and upright position. This particular piece of machinery is also accessible along with a cable which allows operation from the seat of the forklift in order to have the option of manually dumping the hopper. There is a locking chain provided to lock the hopper to the tire truck. This particular product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper likewise has a blue powder coat finish to be able to maintain durability.
